

SIRENS

VOICES OF THE DEEP

A TRANSMEDIA FOLKLORE SERIES

✦ Introducing Sirens: Voices of the Deep | A Transmedia Folklore Series ✦

👤 Who are the Sirens?

In Greek mythology, Sirens are mythical women or bird-women whose enchanting songs lure sailors toward shipwreck and death on rocky shores. Perched at the threshold between ocean and land, they embody the power of song, desire, and destruction.

With voices that promise hidden truths and impossible beauty, the Sirens remind us that what captivates can also consume.

✦ Their stories hold paradox:

They are beauty and death.

They are song and silence.

They are the edge between the known and the unknown — the liminal space of risk and transformation.

💧 They lure sailors toward danger with irresistible music.

🌊 They dwell at the threshold of sea and land, guardians of the in-between.

👁️ They embody the seduction and peril of desire, echoing across oceans and centuries.

We have launched an open-source GitHub project to develop transmedia narrative prototype, inviting you to co-create, remix, and reimagine these stories across XR, games, and immersive storytelling.
